WE BELIEVE TEACHERS CAN CHANGE THE WORLD

If you're a teacher, you're already a hero in our books. But did you know that your class is full of undercover superheroes? Hiding in plain sight, every one of your students possesses a set of incredible organs. These magnificent parts not only keep them alive and healthy – but could save other lives one day too.

The problem is – hardly any kids know this.

As the only organ donation education and awareness programme of its kind, the Orgamites are here to change all that – breathing new life and lightness into organ donation education.

WHAT IS ORGTOBER?

Orgtober, formerly known as October, is our 'Organ Donation Education Month,' a month of activities, activations, and events all dedicated to promoting organ donation education among children, teachers, and families the world over. By highlighting the importance of organ donation and encouraging more people to consider registering as organ donors, we hope to create a worldwide movement that will impact generations to come and save countless lives too.

WHO ARE THE ORGAMITES?

A team of nine life-saving organs found in each one of us, the Orgamites are known as the 'mighty organs' because they represent the organs most needed for donation and transplantation.

Through an ever-growing range of fun, educational resources (geared toward children aged between 5 and 11), the Orgamites are on a mission to inspire and equip more students, teachers and families everywhere to talk more about organ donation and to take better care of their bodies, each other, and our world.
